

Table 1: interaction model statistics for a hypothetical population by time period

seasonal period	population exposed to the traps (as an example)	SNH transect modelled mean trapped spiders (percent)	control transect modelled mean trapped spiders (percent)
weeks 23-25	136	30.0	37.6
weeks 26-31	41	28.6	29.1
weeks 31-34	17	34.0	26.0
