

Table 1: Comparison of SNH and control weekly daytime trapped crab spider counts (Wilcoxon signed-rank test)

seasonal period	Cohen's d effect size	SNH transect mean spiders per week (across 30 traps)	control transect mean spiders per week (across 30 traps)
weeks 23-25	0.35	13.56	17.0
weeks 26-31	0.04	4.12	4.0
weeks 32-34	0.09	1.67	1.5
